PROFILE

I am an Innovative software engineer with a passion for upskilling, problem solving, and staying at the forefront of technological advancements. I possess a strong enthusiasm for front-end development, machine learning, data science & solution architecture. I have unparalleled teamwork abilities, and a proven history of consistently delivering exceptional project outcomes.

PROFESSIONAL EXPERIENCE

Hooligan Development
Software Developer

April 2024 - July 2024
Johannesburg, South Africa

- Contributed to the National Student Financial Aid Scheme (NSFAS) application in South Africa, trusted by over 1.2 million students.
- Utilised Angular to develop a seamless and efficient web application, improving user experience.
- Optimised the web application for enhanced speed, modernity, and user-friendliness.

Bettabets
Front-end Developer

June 2023 - April 2024
Johannesburg, South Africa

- Developed and designed the Bettabets online casino platform, attracting a user base of 80,000+ active monthly users.
- Utilised HTML, CSS, and JavaScript to create a seamless, dynamic, and user-friendly online casino interface.
- As the lead Front-end Developer and UX/UI specialist, I transformed the platform to a whole new level, creating an eye-catching and intuitive user experience.
- Implemented A/B testing, heat-maps, user-recordings and data analytics to optimise functionality and engagement, leading to a major increase in efficiency.
- Revamped the platform, positioning Bettabets as one of the leading online casinos in South Africa.

Paycorp Payment Services
Software Developer - Full Stack

January 2022 - January 2023
Johannesburg, South Africa

- Developed an in-house web application to streamline financial processes for monitoring and payment of self-cashing ATM merchants.
- Tech stack included Angular, C#, and SQL, with integration of code testing tools, software containers, and Azure services.
- Contributed to smaller-scale projects across various departments, demonstrating versatility in technical expertise and project management capabilities.
- I took on the responsibility of being the team-lead and delivered presentations to the executives, and provided comprehensive project updates.
